

Remarks

The Examiner has required restriction under 35 U.S.C. §121 to one of several inventions for at least the reason the Examiner believes that a reference that anticipates or makes obvious one of the inventions would not by itself anticipate or make obvious other inventions.

Applicant hereby elects without traverse invention VI (claims 30-34) for prosecution on the merits and has cancelled previously pending claims 1-29 and 35-67 at the same time reserving the right to prosecute these cancelled claims in another application. Applicant has also added claims 68-76 depending from claim 30 and amended the title.

Applicant requests examination of the pending claims 30-34 and 68-76.

Respectfully submitted,
